EDUCATION

Cambridge Institute of Technology North Campus <i>Bachelor of Engineering in Computer Science and Engineering; CGPA: 7.45</i>	Bangalore, India 2023 – 2026
Government Polytechnic - 169, KGF <i>Diploma in Computer Science and Engineering; CGPA: 7.1</i>	Kolar, India 2020 – 2023

EXPERIENCE

Software Development Engineer Intern <i>Akanksha Foundation</i>	Feb 2025 – July 2025 <i>Remote</i>
- Developed the complete back-end using Django, MySQL, and Python to connect volunteers with NGOs efficiently - Built secure REST APIs for authentication, user management, and activity tracking - Collaborated with front-end developers to integrate API endpoints into the application interface	
Webmaster <i>IEEE Student Branch, CiTech North Campus</i>	Jan 2023 – Nov 2024 <i>Bangalore, India</i>
- Designed and maintained IEEE chapter website, streamlined event posting and archive system. - Led the digital team during Workshops and technical fests.	
Curator <i>Google Developer Groups (GDG), CiTech Bangalore</i>	May 2023 – Present <i>Bangalore, India</i>
- Curated and hosted community sessions on Google Cloud and modern web development. - Engaged 100+ participants monthly in virtual and in-person tech talks.	

PROJECTS

NGO Connect - Akanksha Foundation <i>Flask, React, MongoDB, Tailwind CSS</i>	2025
- Developed a full-stack platform for Akanksha Foundation to manage events, volunteers, and community engagement with role-based access control. - Built using Flask (backend), React + Vite + Tailwind (frontend), and MongoDB for scalable volunteer and event management.	
Leaf Logic AI - Tea Processing Monitor <i>Flask, MongoDB, HTML, CSS, JavaScript</i>	2025
- Built a web-based real-time monitoring and control system for tea processing across six stages, with interactive machine control and fault alerts. - Implemented secure user authentication, dark-themed responsive UI, and live data visualizations for operational insights.	
CITNC Connect <i>Django, React, MongoDB</i>	2025
- Building a full-scale student portal for CITNC with NOC forms, bus tracking, academics, fee payment, and certificate management. - Deployed NOC system using Django REST, React, and MongoDB; expanding to additional modules.	
AmazingVTU <i>HTML, CSS, JavaScript, Django, SQL Lite</i>	2025
- Built a VTU student portal that aggregates resources, results, and study materials. - Deployed at amazingvtu.vercel.app; GitHub: github.com/gowrish005/AmazingVTU.	
Hotel & Train Booking Web App <i>Java, Spring Boot, MySQL, Thymeleaf, CSS</i>	2024
- Developed a Spring Boot web application enabling hotel and train ticket booking with user and admin dashboards. - Implemented hotel management, room booking and cancellation, payment processing, and password recovery features.	
AI Smart Mirror <i>Python, OpenCV, Raspberry Pi</i>	2023
- Ideated and designed hardware setup for a smart mirror using Raspberry Pi and peripheral modules - Collaborated with software developers to align hardware capabilities with application requirements	

TECHNICAL SKILLS

Languages: Java, Python, HTML/CSS, SQL, C

Frameworks: Django, Spring Boot, Flask, MySQL, React, Tailwind CSS

Tools & Platforms: MySQL Shell, CLI, Git, GitHub, AWS (Certified), Figma, VS Code, Linux

Other: Computer Hardware, Networking, Cloud Computing

ACHIEVEMENTS & AWARDS

Presented Tutee AIO at Vision Karnataka 2025

May 2025

- Shared the stage with ISRO, DRDO, UIDAI & IRCTC, presenting an AI solution designed to empower rural students with limited internet access.
- Received appreciation from former Chief Minister of Karnataka, Shri Jagadish Shettar.

1st Place – Codathon 2025

April 2025

- Led the team to victory by solving 3 coding challenges (easy to hard) in Round 1.
- Developed a real-world solution in the final round. Count the number of platforms needed

1st Place – GDSC Code Clash 2024

November 2024

- Led the team to the top spot in a fast-paced coding competition organized by the GDSC (Google Developer Student Club).

3rd Place – Query Storm 2K24

October 2024

- Secured 3rd place in a challenging SQL Query Writing competition.
- Guided the team in query design and optimization.
